No reimbursement will be made at anytime if the applicant/business is not in good legal standing with Federal, State and Local authorities.**

2018 Façade Improvement Grant Information

Program Eligibility

- The FIG program is targeted to existing commercial or industrial properties and businesses city-wide.
- If you are located in a Baltimore Main Streets district, you MAY also need to submit this application to the local Design Review Committee.
- The FIG program cannot be used for new construction, acquisition, interior work, residential properties, rear facades, or on vacant properties without a signed lease agreement.
- The FIG program cannot be used for work begun prior to receiving a commitment letter from BDC.
- The FIG program cannot be used for properties that are not in compliance with applicable zoning laws and urban renewal plans, unless the FIG will bring the property into compliance.
- The FIG program will not reimburse an applicant/business which is not in good legal standing with Federal, State or local authorities.

Design Guidelines

1. The project should make a noticeable contribution to the revitalization of a business district.
2. If the business district is pedestrian-friendly, where people enjoy walking, then the project's design should be in harmony with the character of the area. If the surrounding district is not pedestrian-friendly, then the project should begin to transform the area. Signs, awnings, ground floor windows and doors, lighting, and other decorative elements should be designed to appeal to pedestrians.
3. The distinguishing original qualities and character of the building shall be preserved; removal of historical or distinctive architectural features may disqualify a project. Deteriorated architectural features should be repaired rather than replaced; if replacement is necessary, the new materials should match the materials being replaced in design, color, texture, and other visual qualities.
4. Contemporary design for alterations to existing properties is acceptable if such alterations do not destroy significant historical, architectural, and cultural materials of the building and if such design is compatible with the size, scale, color, material, and character of the property and adjacent buildings.

Permitting and Code Requirements: Contractors must secure required building permits and minor privilege permits and complete the project in accordance with all applicable codes, ordinances, and standard engineering practices. Contractors must be properly registered, licensed, insured, and pass a debarment check as required by law.

Timeframe: Construction must be completed within 90 days of award letter, unless otherwise approved in writing by the FIG committee.

Extension Request: The Grant Administrator MUST receive all extension requests in writing, at least 1 week prior to the project expiration date. Approval of extension requests will be mailed.

Change in Project Proposal: The committee MUST approve all changes made to the scope of work originally agreed upon prior to work being done. Approval of changes does not alter the original amount of the grant.

Maintenance of Improvements: As part of the grant acceptance process, the applicant agrees to maintain all improvements made per the approved plans in their finished state.

Applicant Signature: _____ Date: _____

Name (Print): _____

Owner, if other than applicant: I hereby certify that I am the owner of this building/land on which the proposed FIG project is situated, and that the foregoing applicant, in filing a FIG application for approval by the FIG Committee, is acting with my knowledge and consent.

Owner Signature: _____ Date: _____

Name (Print): _____

(Please submit application with a \$25 application fee made payable to: **Baltimore Development Corporation**)
