II. Chairman’s Comments
   i. Williams noted that the Open Meetings Compliance Board’s opinion has been circulated to BDC Board members; each member signed an acknowledgement of receipt.
   ii. Williams officially acknowledged the opinion of the Maryland Open Meetings Compliance Board which concluded that “the BDC Project Review and Oversight Committee violated the open meetings act by discussing in a closed session, a number of topics that did not fall within the exception that the committee cited as authority for the closing and that the committee failed to disclose its reasons for its decisions to exclude the public from the discussion.”
   iii. Williams expressed appreciation for the compliance board’s guidance and noted that BDC will strive to comply with the Maryland Open Meetings Act. Williams shared that it was not his intention to violate the open meetings act and he assured the group that moving forward BDC will make every effort to be as transparent as possible.
   iv. Williams finally noted that future meetings will need to be closed, however every effort must be made to close them under the correct “statutory authority”.
   v. It was noted for the record that (Board Members) relied on (BDC) counsel’s advice to close the meetings.

III. President’s Report (via Kim Clark)
   i. Clark reported that Bill Cole was invited to speak at the grand opening of Harbor Designs and Manufacturing (1100 Wicomico Street); BDC is looking forward to continuing to work with them, as they grow to 220 employees.
ii. Clark also reported that BDC is jointly funding the Pimlico Racing Study that’s being performed by the Maryland Stadium Authority; Cole will also serve as a member of the steering committee. This study is an important step in the revitalization of the Pimlico and Park Heights area and to ensure a future for the Preakness in Baltimore City.

iii. Clark reported that the Harbor Point project is being evaluated for the phase two tranche of money, the (Baltimore City) Department of Finance (BOF) along with their consultant are conducting the “But For” test, the results will be reviewed by the BOF. The projected issuance of those bonds will take place by no later than the end of June (2016).

iv. Clark further reported that The Port Covington bills were introduced to the Baltimore City Council and will continue to move along that process. The next step includes a public hearing before the Planning Commission, although it has not been scheduled it will likely take place between late June or early July (2016).

v. Clark reported that the hearing regarding the proposed minimum wage legislation (Baltimore City Council) that would raise the minimum wage to $15 per hour is scheduled for June 15, 2016. BDC has been conducting surveys of Baltimore City businesses to obtain feedback to be presented at the hearing.

IV. Committee Report

Business Retention and Expansion Committee

ETC (Emerging Technologies Center), GBC (Greater Baltimore Committee) and the Maryland Department of Commerce hosted a networking event for cybersecurity firms, fifteen companies attended the event.

Loan and Audit Committee

i. A loan to Baltimore Arts Realty Corporation (Open Works) to assist with financing the purchase of furniture, fixtures and equipment for its project to be located at 1400 Greenmount Avenue. Open Works is a “makerspace” that will provide safe, affordable and state of the art facilities for up to 500 individuals, including start-ups and small businesses, engineers, artists and designers.

ii. A loan to Ditter, Inc. (Java Joe’s) to assist with new kitchen equipment, furniture and fixtures, working capital and improvements. A loan to Star Smith, LLC, to assist with financing furniture, improvements, inventory and working capital for the expansion of its retail gift store from 2,500 to 5,000 square feet at their new location, 233 Saint John Street in Havre De Grace, MD. It was noted for the record that the funds for this loan came from the Video Lottery Terminal Fund (VLT), thus BDC is required to provide funds to businesses within a 50 mile radius of Baltimore City.

iv. In response to a question regarding the nature of the funds approved by the loan committee, it was noted that the process is similar to bank underwriting. It was further noted that not all applications qualify to be presented to the loan committee and that most of the businesses requesting funds use BDC loans have additional capital from traditional banking institutions, which spurs investment.

iii. BDC staff (Brian Greenan, Central Team) presented the existing conditions (internal and external) of the property. It was further noted that the property is zoned for mixed-use commercial, thus Proposal #3 from Legsom 400, LLC is appropriate. The developer proposes to purchase and redevelop Site C, which will include five renovated storefronts for neighborhood-serving food retail and 32 market-rate rental units on the upper floors. It was noted that the developer is a minority owned firm.

ii. Further analysis to include this factor was reviewed.

iii. The committee will recommend to the Mayor and the City enter into an Exclusive Negotiating Privilege Agreement for the sale of the property to this developer at a price that is different from the price that was offered based upon the analysis of returns to the developer and to the City.

iv. Everyman Theatre proposes purchasing and renovating this property to serve as an expansion of the Everyman Theatre (located at 315 West Fayette Street). The development program (Everyman Studios) includes a costume shop, rehearsal hall; two flex classroom spaces, storage space and eight short-term, furnished apartments to serve as temporary housing for out-of-town artists associated with active productions at the theatre. Those units will also be offered as short-term, market rate apartments during the course of the year when they are not occupied by out-of-town artists.

vi. The appraised value of the property obtained by BDC Staff was $415K. It was noted that this property has reached its economic functional utility.

vii. It was noted that this property is in complete disrepair and is a financial drain on the city to maintain. It was further noted that due to the parameters stated within the 2001 MOU with the Maryland Historic Trust, places restrictions on the level of rehabilitation that can take place in the property. It was further noted that due to these additional restrictions, the appraiser determined that further reduction in the property’s value was appropriate.
